

Finally, a solution that integrates job management software with business accounting software

Organizations that engineer or manufacture to order have unique business requirements that demand technology solutions designed to meet their special needs and workflow.

SSYH and Cost Control Software deliver a Microsoft Dynamics® NAV solution for manufacturing and job shops that will lead to tangible economic growth for your business.

WE FEEL YOUR PAIN

Both SSYH and Cost Control Software have experience working with companies like yours in the manufacturing and job shop industry. Many are unable to track labor, not to mention labor allocation to a specific job. More often than not, these companies don't know what each of their jobs cost, or whether their jobs are profitable. The problem is often caused by multiple systems that aren't integrated, which results in "islands of data" requiring redundant data entry which is time consuming and leads to errors.

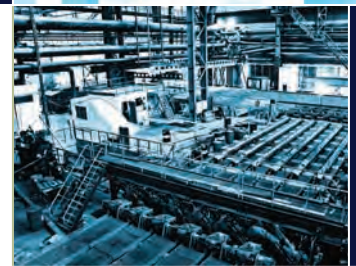

INTEGRATE YOUR ACCOUNTING AND PRODUCTION SOFTWARE

Microsoft Dynamics NAV paired with Job Manager provides a fully integrated solution for manufacturing and job shops, In addition to providing instant access to vital company data and eliminating redundant data entry, integrated systems increase productivity, improve customer service and reduce costs.

INCREASE PROFITABILITY THROUGH PROJECT COSTING

With each job or project having a different set of specifications and requirements, job profitability becomes the key element to generate consistent bottom line profits.

Today's economy demands that organizations control costs and operate at peak efficiency to remain competitive in the current business environment.

JOB MANAGER FEATURES

- Project costing for profitability analysis
- Master job/sub-job breakdowns and roll-ups
- Full work breakdown structure
- Detailed estimating for specific tasks, connected to sales quotes, scheduling, flushing, production and more
- Labor allocation for specific jobs
- Overhead allocations
- Multiple billing options
- MS Project interface

THE SSYH AND COST CONTROL SOFTWARE PARTNERSHIP

Stanley Stuart Yoffee & Hendrix (SSYH) and Cost Control Software have teamed up to provide a fully integrated solution, seamlessly merging your production and accounting software.

SSYH is a Microsoft Gold Certified Partner specializing in **Microsoft Dynamics NAV** solutions for the manufacturing industry. **Cost Control Software** provides **Job Manager**, a complete project costing solution that allows you to see the real-time costs of your jobs. Together, we can help you achieve your manufacturing organization's strategic goals.

NEW TECHNOLOGY DELIVERS GREAT ROI

In today's economy, ROI is more important than ever. A fully integrated system can actually save your organization money over time. We can help you calculate the return on investment (ROI) new technology can bring to your organization.

- Increase productivity
- Reduce costs
- Improve customer service

IT'S OUR BUSINESS TO HELP YOU FIND THE RIGHT SOLUTION FOR YOUR BUSINESS.

We know how demanding your business can be. It's not enough to show you a flashy demo and try to sell you an off-the-shelf solution. We take a consultative approach by evaluating your company's workflow, business processes and functional requirements. This enables us to perform a needs analysis to determine which technology solution meets your business requirements. By working with partners who take the time to thoroughly understand your organization's unique needs, you can rest assured you're choosing the right solution for your business with the lowest possible risk.

Put our knowledge to the test and let's see if we have a solution for you.
